OUR 1966 CATALOG

This is the 26th continuous year we have printed and distributed a fully priced building materials catalog. Through its pages we have been able to help you do some of your own estimating, letting you know about new materials, and keeping you up to date with all the services we offer. We hope it will serve you well.

PLANNING AND BUILDING

If you are planning a major improvement and are at a loss to know how to begin, may we suggest a meeting with you in our planning room. Here are seven of the most common pitfalls many home owners have experienced at one time or another with their remodeling work.

- Inadequate Planning
- Careless Estimating
- Inadequate Financing
- The Inexperienced Builder
- Inadequate Insurance
- Using Improper Materials
- Lack of Job Management

If our experience with others is any indication, we could help you avoid most of these pitfalls.

OUR CREDIT POLICY

Welcomes Your Charge Account

It's the most convenient way to take care of multiple orders . . . and we welcome the opportunity to arrange this credit service with you. Our credit department also offers time payments for materials and labor on modernization jobs . . . see table of monthly payments at right.

Arranging for a charge account or home improvement loan may be accomplished quickly and at your convenience. We invite you to take advantage of these services.

FRAMING LUMBER

Made of West Coast Firs and Hemlock, this stock is kiln dried before surfacing to assure uniformity in size. Because of this uniformity you can save many otherwise wasted carpenter hours with hatchet and shims. Better builders everywhere insist on kiln dried framing for true economy. We guarantee our framing grades to be No. 1 Common and BTR, with a 25% maximum of No. 2 Common and positively no Number 3. Priced by the piece for ease of figuring.

FINISH LUMBER

KILN DRIED WHITE PINE

We carry 2 grades of pine—listed and described below. This is the lumber to order for shelving, interior and exterior trim, and many other uses. It is sold only in even lengths . . . and we will cut to specified sizes. We make a cross cutting charge of 5c per cut, and a ripping charge of 5c per lineal foot, over and above the piece price.

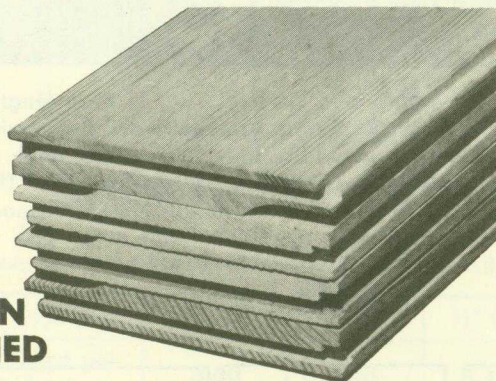

COMMON PINE

This grade of pine has large and small sound knots with an occasional loose knot. This grade is usually satisfactory for shelving of many types . . . we do not recommend it for finer kitchen cabinet work and other better built ins.

FLOORING

We carry the nicest selection of quality flooring that we can buy.

CLEAR RED OAK

Here is the nicest red oak flooring that money can buy. There is no better grade available. Uniform in color, free from blemishes, it lays fast and produces the most beautiful floor for the choicest locations in your home. It's kiln dried, full $\frac{25}{32}$ " thick, $2\frac{1}{4}$ " face, random lengths. Add $\frac{1}{3}$ for matching.

36c per bd. ft.

PREFINISHED OAK FLOORING

Our pre-finished flooring makes one of the nicest floors available. $2\frac{1}{4}$ " wide and $\frac{25}{32}$ " thick, this floor is permanently finished with a "bath" of penetrating sealer, topped with a final coating of heavy-bodied, low-volatile finish that is IRONED INTO the pores under extreme pressure. Unusually durable, easily cared for, and will give a life-time of service. Packaged 24 board feet per bundle (covers 18 square feet).

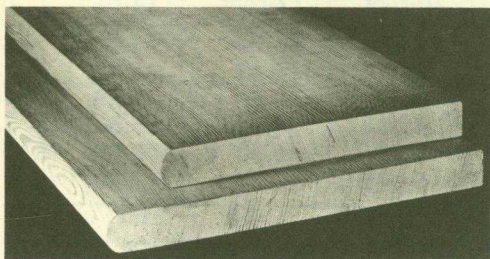

\$10.08 per bundle **42c** per bd. ft.

FIR FLOORING

Made of select fir—the best you can buy anywhere. Comes full $\frac{3}{4}$ " thick and $3\frac{1}{4}$ " wide (counted 1x4). Stocked in 8', 10', and 12' lengths. A must for all porch and outdoor floors.

CONTEMPORARY STYLE

KITCHENS

— WALL CABINETS —

If your taste leans toward modern, you no longer have to settle for the drab, stark look of ordinary cabinets. Choose the "Decorator Line" . . . for its new, dramatic styling. Here is clear, crisp design . . . with long sweeping lines of adjoining cabinets flowing into each other. This smart pattern creates a "framework" of beauty for the entire kitchen. Same exact construction features as are used on the traditional design on the opposite page.

ANDERSEN NARROLINE DOUBLE HUNG WINDOW

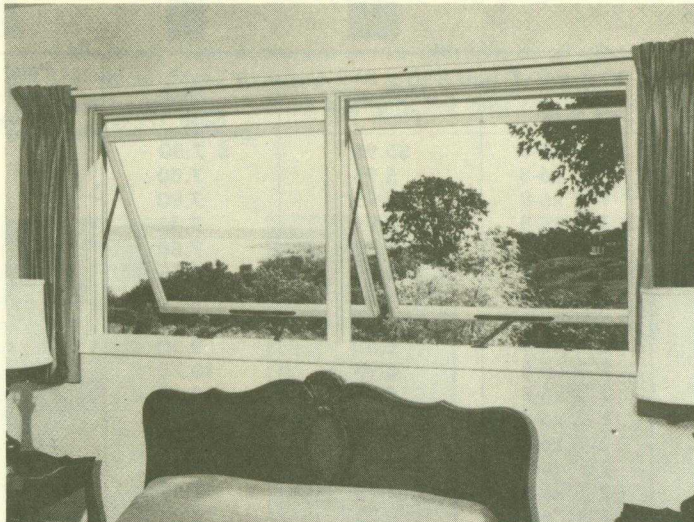

New from Andersen! Offering smooth operation, weather-tightness, and convenience never before found in a double-hung design. We've priced this both with standard glazing and no screens, and with welded insulating glass and full screens. We consider the new Narrowline today's greatest window value . . . yet it costs no more than the ordinary kind.

Here's the new Perma-Fit Grille. Available in ten different layouts to give your windows the distinctive cut-up design—yet so easy to remove for cleaning. Available for all Narrowline windows.

ANDERSEN FLEXIVENT WINDOW

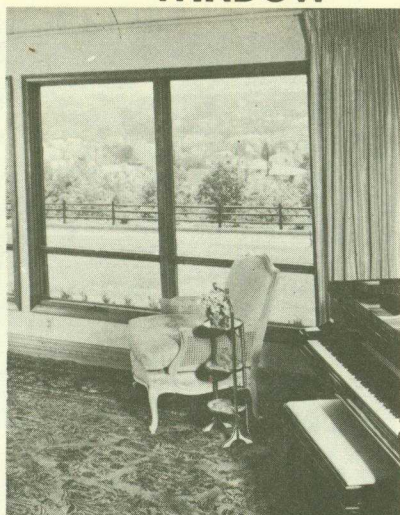

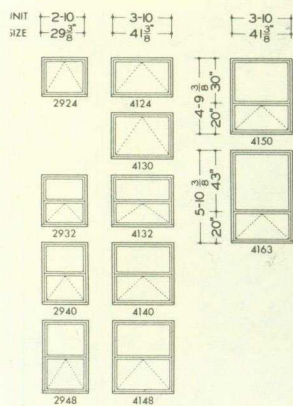

The Andersen Flexivent is without question the most useful and flexible window available today. The above illustration shows two units assembled lengthwise to give more wall space. We are listing the single units below . . . vented with awning lock hardware. These units are completely assembled with outside casings and sill. They are priced with or without storm and screen panels. Add \$5.20 to these prices to vent with Roto-operating hardware.
